The Lady of Shalott

Painting by John William Waterhouse

Pre-Raphaelites is the art style that I came interested with, and The Lady of Shalott is one of the examples art. John William Waterhouse's 1888 painting shows a woman caught between death and desperation, trapped by the tragedy of love. it reflects the struggle that women face to make themselves heard, which represents the Pre-Raphaelites, it believed art should be as similar to the real world as possible.

Somehow, I relate to its art piece.
