UNDERSTANDING THE SELF

ACTIVITY # 7
Creative work

1. Propose a program in school or community that will raise the awareness of the students and to help eliminate sexually transmitted diseases among the youth.

A program I would propose in my school or community would be a sex education, if we let them know the basic knowledge of safe sex it would lessen teenage pregnancy resulting on more educated youth in the future. I think it's a good practice because it will eliminate the stereotyping when it comes to sex. It should not be consider as a awkward topic since it is human nature.

2. **Agree or Disagree.** Are you in favor of legalizing marriage among homosexuals and transgenders? Why?

Agree. why wouldn't I be? It's not like my life changes in any meaningful way when someone on the other side of the planet marries someone of the same gender. My life wouldn't even change if my next-door neighbors did it. They deserve the same rights to marriage as strait people, denying it is just plain dumb and bigoted. The only thing I want is for everyone to have equality and equity. Get married, have babies or don't, adopt a few if that's your thing. Love one another, be free with each other, respect one another, forgive one another.
